```

**Prior authorization request**

```
Prior authorization request: compounded Gabapentin 100 mg/mL oral suspension for Aisha
Rahman (member ID ACM-208-71, Acme Health PPO).
Prescribed by Dr. Priya Raman: Gabapentin 200 mg, 3x/day.
Medical necessity: no covered commercial product is suitable for this patient:
  - Gabapentin oral solution: not covered. Non-formulary liquid. Capsules are covered.
Plan rule: Compounded prescriptions need prior authorization showing that no covered
commercial product is suitable for the patient.
```

## Compounding procedure

**Ingredients**

- 62 × Gabapentin 300 mg capsules (18600 mg; 18500 mg needed)
- Starch-based sugar-free suspending base (paraben-free) q.s. to 185 mL

**Equipment**

- Mortar and pestle
- Graduated cylinder
- Amber plastic bottle
- Oral syringes

**Steps**

1. Calculate: 100 mg/mL × 185 mL = 18500 mg Gabapentin.
2. Gather 62 × Gabapentin 300 mg capsules (18600 mg; 18500 mg needed).
3. Open the capsules and empty the pellets into the mortar.
4. Add a small amount of Starch-based sugar-free suspending base (paraben-free) and levigate into a smooth, lump-free paste.
5. Add more vehicle in portions (geometric dilution), mixing well after each addition.
6. Transfer to a calibrated amber bottle, rinse the mortar with vehicle, add the rinse, then add vehicle to a final volume of 185 mL (q.s.).
7. Cap and shake well for 1 minute.
8. Label and store: refrigerate.

**Quality checks**

- Uniform appearance, no clumps
- Final volume checked
- Re-disperses easily on shaking

- Second person verifies calculation

**Label text**

- Give 2 mL by mouth three times daily. Shake well before use. Keep in the refrigerator.
- Discard 35 days after the compounding date (beyond-use date).
- Compounded medication. Keep out of reach of children.

Demo only. A licensed pharmacist must verify every step.

## Safety findings

**WARN · regulatory** — 10 commercial product(s) look suitable for this patient: Gabapentin (Ajenat Pharmaceuticals LLC, oral solution); Gabapentin (BioComp Pharma, Inc., oral solution); Gabapentin (Acella Pharmaceuticals, LLC, oral solution). Under FDA section 503A, document the clinical reason a compounded version is needed.
